CREATE A STORM PICTURE

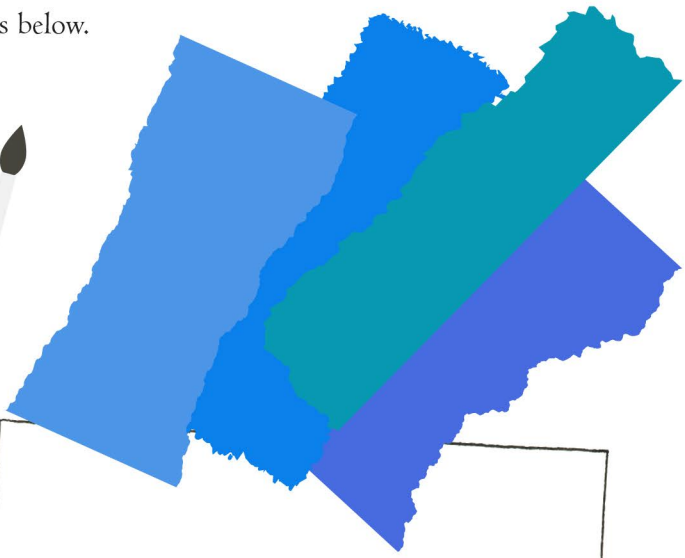

Try out some different art techniques,
using a variety of art materials and found objects to create a stormy scene.

Try out some of the ideas below.

Choose a range of blue, grey and green paints and mix in some thick glue to the paint.

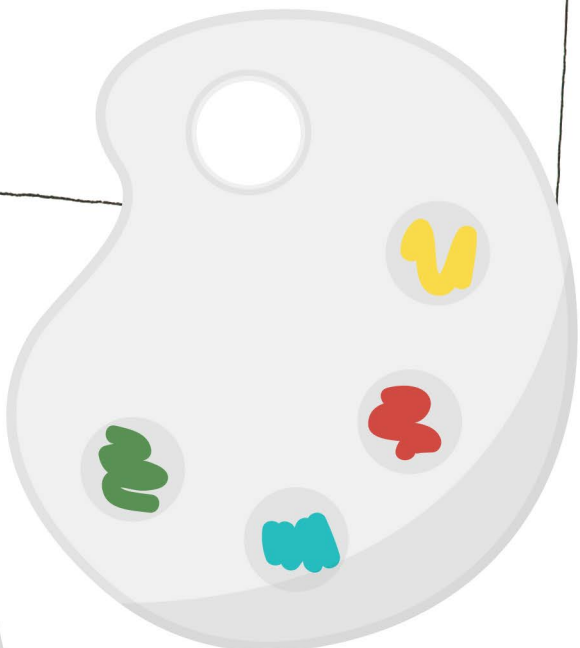

Spread the paint onto a piece of paper and then drag objects such as combs, spatulas and pieces of jagged card through the paint to create wavy shapes.

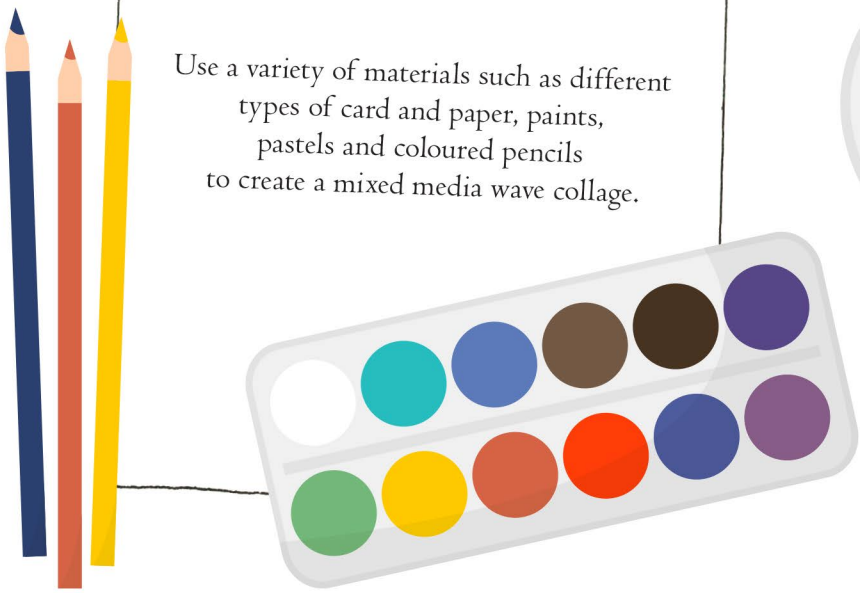

Tear up some strips of blue, green, grey and silver tissue paper.

Overlay them on a piece of blue sugar paper to create a stormy sea effect.

Use a variety of materials such as different types of card and paper, paints, pastels and coloured pencils to create a mixed media wave collage.
